I've asked for the Rineco documents, but did not get them... I'll check with Sasha and ask her to forward anything she has to us.

I requested a call with IDEM inspector. But I am not sure whether they would accept.

Since they are IDEM compliance stuff, maybe it would be better if you can contact the management of the IDEM compliance.

I also request the inspection report once it is available.

Mike C, do you have a copy of the Rineco Complaint and final consent decree?

Ok, that sounds good Jae. Can we try to set it up tomorrow?

I'd also like to get a copy of the Rineco Complaint and final consent decree.

**Subject:** RE: Tradebe permit renewal application

If we can have a call with IDEM RCRA inspector this week, we could ask these questions.

We need to have this call with IDEM before we can have a call with HQ.

**Subject:** RE: Tradebe permit renewal application

Can we ask IDEM to share Tradebe's data? We would not be asking for the inspection report. And John Naddy did not indicate when the report would be final and available for external sharing. It could be weeks from now. At the least, can we speak to the RCRA inspector and ask him/her what specific information was requested from Tradebe?

I can still get started with preparing questions for the 3007.

Thank you John for the information.

We have a conference call scheduled with HQ soon, so in order to provide more recent and accurate information to the HQ, can we have a conference call with the IDEM RCRA inspector who might know the first-hand information??

I cced to Mike Cunningham and mike Valentino of RCRA compliance section.

Jae

Mr. Lee-

I believe that the IDEM RCRA inspector did request that information from Tradebe during the latest inspection. The inspection report for that inspection is still being compiled, has not yet been submitted for internal review, and cannot yet be forwarded.

I will let the inspector know that you are requesting that information when it becomes available.

Ruth,

I was told by IDEM air that IDEM RCRA has asked Tradebe to submit a mass-balance data information of the Solid Desorption units. Do you know when they could submit the data?

Jae

John,

Do you know whether the current (Feb 25, 2015) Air Permit for TradeBe specifies the maximum amount of vapors (VOCs) to be burned in the Flare?

Jae Lee

Thanks, Ruth.

Who might have a first-hand knowledge of this SDS unit?. I would like to have a brief chat about this unit for the incoming and outgoing stream and its flare control of off-gas.

Jae

**Subject:** Tradebe permit renewal application

Hi Jae,

I received your message. Tradebe does not have a description of the SDS in their renewal application. Since it's an exempt unit, we do not require any detailed information.

Thanks,

Ruth
